

Daily Matrix - May 2024												
Day No	Date	Day	Co-Circular Activities	Waste Time/Time epass	Useful Time	Spent On Any Social Media	Holiday /Event	Day Theme	Weather	Thankful for	Journal Diary	Achievement
1	1	Wednesday	Coding	1	0	1	Labour's day	A Preparation for future!	Heat	Thankful for free spirit that is deep inside me	Started off my day with a lazy rise. Depths of coding and a simple workout. Rest of the day was not much of a special moments. Although, I got a call from a company for tomorrow's interview which is at Komanagala. Hopefully, I do good. The dinner was also very light.	NA
2	2	Thursday	NA	1	0	0	Jobless Day - 34	Drizzling Adugodi	Light Drizzling	Thankful for the guidance for interview.	Started off my day with a trip to Koramnagala and Adugodi for the interview. It was actually consultancy company. They suggested me about current BPO openings details But I am still not fixated with my decision. Had some nice outside food for the trip, but still have to manage the income i.e managing the expenditure. To my shock, while coming back there was drizzling rain everywhere. Finally for this evening, got rid of the heat that was caused in Bengaluru for months. Loved it! After coming home, had a nice dinner.	NA
3	3	Friday	NA	1	0	0	Jobless Day - 35	Electronic City Saga	Light Drizzling	Thankful for the rain and chances for interview.	Started off my day with a rise and shine approach which still needs improvement. Wanted to try for Alorica interview, so started off my journey to Ecospace, Bellandur. Tried to call my recruiter and after many attempts finally lifted and told me that the update will be informed to me tomorrow. Had no choice and thought of trying interview at Korpanna Agrahara, Electronic City - IntouchCX. The area is very dangerous as I almost got into accident. Oh my god! I still reached the office and attempted all the rounds. This was my third attempt. I still couldn't clear because I got disqualified in the Essay writing round. They said that I needed to improve on the quality of Essay writing. I was little frustrated after going out of office and then after a few seconds, I said that I am going to improve as based on my principle states that Today's interview will be preparation for the next interview. That same night I got a message in Whatsapp saying that I have scheduled interview at Alorica. Had some good outside food and also loved the area near IntouchCX. At the end of the day had some nice dinner. Will I able to complete my story at Alorica?	NA
4	4	Saturday	Coding	1	0	0	Jobless Day - 36	Bellandur Heartbeak	Fresh air and heat	Thankful for the interview at Alorica stating that I still got it, only just to lose to Rehire status issue.	Started off my day with an intention of clearing interview at Alorica which is in Ecospace Bellandur. The last time I had to leave due to helath issues. I also remembered that how AC had almost killed me metaphorically. Nevertheless, I did clear the first round. Only to know that, I cannot be hired as they informed me about the Rehire status. I was disappointed. As today is Saturday and most of the interviews the time was over, there were no other job opening that I could go to. The rest of the day was nothing special and in the dinner ate some nice Upama and also Rava Idli. As, I always visit the Jayanagar 4th block, there is a feeling that I have not completed story. Missed also my school days too.	Cracked Alorica interview in first round.
5	5	Sunday	NA	0	1	0	Jobless Day - 37	A Blissful Banerghatta	Not felt as I was travelling	Thankful for the trip where I learnt lot of things and blessings from ISKON temple.	Today I had actually planned for a major combo trip which includes Bannerghatta NationalPark, Cuisine Restaurant at Gunjur Village- Varthur and ISKON temple. Started my day with a very nice workout and ended it with drinking Mseed Veg Juice. Started off my day with the combo trip and actually started from ISKON temple by getting down at Mahalakshmi Metro Station. This was the last but one station to visit in th green line. I was panicked as I was carrying scissors in my bag, I did n't know where to keep it. I tried to give it to owner of a nearby store, but she called me a headache. Very cold people at Mahalakshmi area. So, the only thing was to do take the risk. I went inside and actually felt little bit pleased as we had to keep our bags outside. So went inside and following the rules, did Hare Rama on the way to the top of the hill on ISKON temple. Donated some 500/- to the temple as this was a very huge one of all the donations of other temples. After reaching the main temple and finishing my prayers at the main temple of ISKON, I was pulled aside by some ISKON authorities. They told me that there were having a classed based on Bhagvad Gita. I felt interested and talked to the person for a while. I felt it was necessary and told him that currently I am not interested. However, we did talk for a while and we got along with the same page. After finishing ISKON temple, had some nice 2 idli in nearby hotel. As for me it was auspicious to not to have anything until ISKON is finished. So, the next trip was Bannerghatta National Park. Reached majestic and onboarded a bus heading towards Bannerghatta. During the travel, I also my old company where I had given interview(Brickwork Ratings). I said, Bruh! We passed through areas like Kalena Agarhara, Gottigere Bus Stand, Gottigere Lake, NICE Toll Ring Road,.... and many more places on the way. This was my fourth travel approximately on this road and still did n't have those vibes like last time, but it is maybe because of the metro built and constantly changing area. Uh, wish I could have those vibes again. I think so, that my memory is colliding with creative imagination. But the Bannerghatta Road travel was very good. I also went ahead of Gottigere Bus Stand. Saw a beautiful Gottigere lake also. After finally reaching Bannerghatta National Park, crossing NICE ring road toll, colleges like AMC Institution and schools like Global Institution School, the first thing I did was go to washroom. I also got down at the bus stand where all the Bannerghatta National Park was the destination. Purchased the ticket for the zoo and Butterfly park. Lot of people were there with different style. I did n't like the couples, family pack or girls there, Lol! Just minding my own business. Still it was very frustrating. Checked out couples of animals like Tiger, Giraffe, Zebra, Wolf, Antelope,.... and many more. After finishing the zoo, inside there was a boating activities. I purchased a ticket for the Pedal 2 seat driver boat. I enjoyed it a lot. In the middle of the lake, there was a fountain pouring out the water. I was told to follow the rules by going with one round through the lake and not going to the middle of the ocean where fountain was. I took some nice selfie videos and pics during my ride in the boat. After completing boating, I watched the leftover species of birds and animals. I never purchased the ticket to the safari, because I also wanted to try the cuisine at Varthur. So, after visiting the Butterfly Park, I went ahead, exited the Zoo and onboarded a bus that will take us to Majestic. I ate some delicious treats like Chats, Deserts,.... and many more during my wandering through the national park. It was a very heated summer also. All the tickets had to be purchased seperately. So, after getting into a bus, I got to know the easiest way to reach Varthur was to plan for a metro. Got down at Gottigere Bus stand, picked up a bus to Konankunte Cross Metro. Reached Metro and from there I was thinking whether to go for Varthur as it was already late. Within the few hours of confusion and going here and there, finally I decided not to go to cuisine as it was already late. Got down at National College and planned the cuisine for tomorrow. It was a very relaxing day with fresh nature and travel the areas which I never visited rather than from childhood. While coming home, had some nice Veg Pizza Bun. Reaching home, told my experience to my parents and grandfather followed by a regular nice dinner. So, am I really freshes to take on interviews?	An unforgettable solo trip
6	6	Monday	NA	1	0	0	Jobless Day - 38	Job Chopped!	Drizzling and Heat	Thanks for conductor to make me bring to the reality.	Today I started my job hunt again. Fresh off from Monday, Perfect start! I scheduled a interview at JobShop. As I started my journey, I had a little quarrel with bus conductor. I also noticed that when I get angry, at the same time I also started feeling weakness. But I had to refocus as there were lot of mixed feelings and emotions. After reaching Majestic, catching a Frazer Town bus, sat silently for 5 - 10 minutes. I was able take some drastic measures. I was told that Concentrix had opening for Voice and Non-Voice. In the middle of confusion and decision-making, I chose Non-Voice. Gave the AMCAT test which consisted of essay-writing. Tried as much as I can, But previously it was followed by long hour wait and a lot of interruptions. Finally was able to finish HR Round and AMCAT test. They told me that if I got selected, I would be called tomorrow for a reminder. Finally reached home and finished my day with Dinner and slept off.	NA
7	7	Tuesday	NA	1	0	1	Jobless Day - 39	80 Feet Destination!	Normal	Thankful for the sholkas that are making me peaceful.	Not much of a special day. Today started off my day with interview at Wroots- Kormanagala Got also a call from JobShop stating that I jave cleared the round. In the midst of the confusion, decided not to attend. The conversation might not have gone so good. Even for the Wroots openings were the same. I could not applied for Concentrix and the reason is cooling period. They suggested me 24-7 Intouch Company at Electronic City. But when I checked, it was similar to IntouchCX which I had already attended it. After reacting Jayanagar 4th block - Swasthi Stepstone careers, got to know there is an opening for Non-Voice Domestic process for Big Basket process at Tin Factory. I said ok and they told me to come tomorrow. There is also an opening for Fresher Recruiter(Provisional HR Consulting) at BTM Layout. So, the question was to choose HR or BPO. Finally ended my jobsearch and the rest of the day did nothing.	NA
8	8	Wednesday	Coding	1	0	1	Jobless Day - 40	A Break in Jayanagar	Heat in Afternoon and Rainy in Evening	Thank you for the rainy season and offers	Intention was to visit and attend interview at Jayanagar 4th Block. Started off my day with interview at Jayanagar - SwasthiStepstone Careers. Got to know the details once clearing few rounds. But declined, as the shift timings were ok except as it was 12.00 maximum and there would be no metro or cab. It was little rude by a person and told me that I can leave for the day. But it's ok, as I realized it was not his mistake. The rest of the day was same just like other days. There was a heavy rainfall in the evening. I feel whenever I go to Jayanagar 4th block, I feel like I am meeting younger version of me. On the same day, I get a text message from Conneqt and mail from Alorica. What is next for me?	Job Offers
9	9	Thursday	Coding	1	0	1	Jobless Day - 41	A FlyOver to Electronic City Phase 1	Heat in Afternoon and Rainy in Evening	Thank you for the rainfall that is helping me in my mood development.	I was very cool today as just I was informed that I can join from May 26 in Conneqt Company. But thought of trying trying other company as it was still so many days left. So, I scheduled a interview at Electronic City Phase 1 - Artech Infosystems. I also realized that I had interviewed here long time ago. This time I had applied for BPO - Voice process. Talked with recruited and he told to come down for the interview. Happy! Started my day off with interview at Electronic City journey. As I took a day pass, instead of going below flyover we went on the flyover. It was very fun as the breeze past through my face. I also got to know to take a toll ticket which charged of 10/- The Electronic City Phase 1 is a very lovely and awesome area as I passed through many MNC and other companies buildings. As I reached there, the waiting was 1/2 hour, the interview was for 5 minutes and told me that next rounds will be virtual which will be informed me tomorrow. I was sad that I did n't give interview and finish by today. They told me about details for the job role and benefits. I was happy. The rest of the day was simple and did little bit of the coding. Finished my dinner and slept off.	Interview Chance at Artech
10	10	Friday	NA	1	0	1	Jobless Day - 42	Empty Soul!	Heavy rain in midnight and remaining day was plain weather	Thankful for people putting efforts towards me.	Today it was Akashya Thiritya. It was a very special day as per our Hindu Tradition. But the day did n't started so good as there were quarrelling between me and my parents. Things cool later next later. The rest of the day was no interview or outside. It was plain and simple.	NA
11	11	Saturday	Coding	1	0	1	Jobless Day - 43	A Preparation Part 1	Casual Weather and no rain.	Thankful for calmness that I am learning.	Not a such special day. Whole day was casual and simple. Father went yo Bagalkot. No rain whole day. Little bit of coding. Did little workout in the morning.	NA

12	12	Sunday	Coding	1	0	1	Jobless Day - 44	A Preparation Part 2	Heavy rain in midnight and remaining day was plain weather	Thankful for calmness that I am learning.	Not a such special day. Whole day was casual and simple. No rain whole day. Little bit of coding.	NA
13	13	Monday	Coding Planting	1	0	1	Jobless Day - 45	A Preparation Part 3	Heavy rain in midnight and remaining day was plain weather	Thankful for calmness that I am learning.	Today only special was Pizza part at the end of the night where Raghu Kaka and his family joined us. There was a little bit of coding. The rest of the day was nothing special. Picked Ritu from South End Circle as she had gone outside.	NA
14	14	Tuesday	Coding	1	0	1	Jobless Day - 46	A Preparation Part 4	Unkown	Thankful for calmness that I am learning.	Not special day. No going outside anywhere. Kaka and his family went back home. Father returned from Bagalkot.	NA
15	15	Wednesday	NA	0	1	0	Jobless Day - 47	Clash with Wipro in Kalkondanahalli	Plain Weather	Thankful for giving me chance for the interview in Wipro.	Started my day of by waking up early. No workout! Need to change my mind. Was Searching for the jobs in job portal and found there is an opening for Content Moderator in Wipro at Kalkondanahalli. Checked it's eligibility and it seemed all fine with that. Proceeded preparation for the journey for Wipro. After finished everything, prepared my journey by picking up bus at Nagasandra Circle. Took a metro to Majestic and then followed by bus pickup at Majestic to Wipro. Unfortunately in that afternoon, the driver told me that the bus was actually taking a U-turn at Ibbalurur and it was the last stop. I then realized it was waste of time. Not wasting any time. I picked up a bus at Ibbalurur and finally got down at Wipro(Kalkondanahalli). Took a whole day and missing the lunch to clear few interview rounds. The results announced to me not so much dear to me, but I was able to get required essential info from company. Not yet decided fully to join or not. Strangely, this was my first time for top level Global MNC company and first time to area of Sarjapur Road. I was actually thinking that the interview was going to be at Sarjapura. Little sad, as I wanted to see the area, Uhh! Anyways finished the interview and came back home. It was also a very long journey. Had dinner and slept off. The rest of the day was plain and simple.	Interview at Wipro
16	16	Thursday	NA	1	0	0	Jobless Day - 48	Change Room, Change Plan	Plain Weather and Little Drizzling in Night	Thankful for the thought of cleaning my room	Started my day off by waking up early. I did nothing whole day and also didn't think about going outside or attending interviews. Still deciding whether to join Wipro or not. Salary does matter a lot. Ate Bhel Puri as a snack in the evening. The whole was plain as there is no rain.	Cleaning of room after a long time.
17	17	Friday	Coding	0	1	1	Jobless Day - 49	New Look to No Look	Heavy Rainfall in morning and rest of the day was plain.	Thankful for the new look. Feel much better.	Heavy Rainfall in the morning made me wake up early like 5AM. Need new look with new changes - so did usual haircut, shaving and cutting the nails. The rest of the day was plain and simple. Wanted to attend the interview at Sathnur. But as I reached Srinivas Cool Corner, I got to know the reporting time was like 8.30AM, I could not reach as it was in further above Yelhanka. Came back home and the whole day did coding in both JS and Java.	Completed Spring Java part.
18	18	Saturday	Coding Chores Help	1	0	1	Jobless Day - 50	A Echoes of Help!	No rainfall whole day ; Dry and Plain	Thankful for mother giving me chores. It felt little better	No Rainfall whole day. Chinmay Dada and his family came to visit us in the evening. No did anything whole morning and afternoon, except coding. The rest of the day was plain and simple.	Completed Spring Java part.
19	19	Sunday	Coding	1	0	0	Jobless Day - 51	Spring chill, Sunday boot!	Rainfall in Evening Rest of the day was plain.	Thankful for the course on completing Spring topic.	As usual plain day and nothing much to do as I am jobless. No extracircular activities. Did some Java Coding - entered Spring Boot. There was a heavy rainfall in the evening. No workout. As I have 2 walk in interviews for IT - one is at Indecomm(MG Road) and the other is at ModeFinserver(Nandini Layout), still deciding whether to attend or not.	Completed Restful API and Entering Spring Boot
20	20	Monday	NA	0	1	0	Jobless Day - 52	Metro within!	Rainfall in Evening Rest of the day was plain.	Thankful for the interview I got at ModeFin - Yeshwantpur	Today I had a walk in interview for IT at Yeshwantpur and MG Road. Started of my day by waking up and planning for workout. I finally woke up my lazy a** and did some workout in the morning. Also did meditation and felt much better. Prepared my journey to Yeshwantpur for IT interview. It has been a long time since I gave interview for IT. Planned a specific ways to reach destination. There is another company in MG Road for IT job also and so added this also too my plan. After Pooja got finished, departed from my home. Took a bus from Nagasandra bus stop and reached National College metro. After travelling few hours, this was the first time I got down at Goraguntepalya Metro station for the interview purpose. The first thought came to my mind was there are lot of IT companies in this green metro route that are hidden. Wowiza, Uhh! The plan was to reach MEI Road and catch a bus as shown in the Google map. As soon as I reached the MEI road, there was no bus and hence plan flopped. So, had to walk for a few kilometers to the Interview location. It was approximately 1km. The area was almost industrial area and saw one of the boards which was written on the address which consist of the word "Industrial Suburb". The roads were fully worst and there were lot of mudpools and the footpath was filled with little bit of garbage. I would rather say it was a very open area. There was no hotel or restaurant not only in that area, but also from Goraguntepalya Metro to Interview location. There were small bakeries and near the metro there were huge buildings which few of them were in construction. I finally reached my destination after walking and searching a few kilometers. As I reached, I made an entry and saw that there were lot of people who also came for the interview. Gave my CV and they told me that I was not eligible as they were few changes I had not made. After a few minutes of discussion, finally got a chance to attend first round - Written Test - which was for 2 hours. It was little difficult to crack and somewhat attempted as much as I could. Finished my interview and told me that the result will be within a week. But, I already knew that I will not able to crack the interview. After finishing the interview, next stop was MG Road. The area was amazing as I travelled and checked the area of Yeshwantpur. Few of the area sections were good. Ate some nice kulfli while I was travelling around there. Instead of going straight on the same route, I travelled around the circles around that area. So, at the moment I decided to go to Yeshwantpur station and visit it. So, when I reached there I saw a beautiful mall which is Vaishnavi Sapphire Mall. I wasted lot of time and it was unnecessary, but had to do this or else I won't get any chance. I finally reached the Yeshwantpur metro station and boarded the metro and finally reached the metro. I decided to go try for Kannada process - BPO instead of IT as it was already late. As I attended interview, I got to know there are sales and target. The job was suggested by Victimann Consultancy Group by a recruiter Vaishali. She seemed very friendly and talkative person. And the CTC and take home salary was also very less. So, I decided and said no to the interviewer. Finishing my day with these 2 interviews, I decided to take IT interview tomorrow. I also told ma'am about how the things how it went on the interview. She suggested a few other interviews and told me to call if any help needed. I said Ok! . I returned back from home, finishing my dinner and slept.	Interview at Yeshwantpur - ModeFin
21	21	Tuesday	Coding	1	1	0	Jobless Day - 53	Clash with IT	Plain Weather	Thankful for the interview I got at Indecomm - MG Road.	Today I had scheduled interview at Indecomm for .Net Developer at MG Road. Only one round was taken. The other rounds informed to me which is virtual tomorrow. Day after tomorrow, Qconnect joining date. I asked them about the results and they said it will be within Friday. A Battle line has been opened between IT and BPO. What to do? Should I delay the joining date of Qconnect? Did little coding on .NET. The rest of the day was normal. Visited Mittal towers as I struggled to get a printout. Beautiful building! The office is actually next to Trinity Metro station. There was flow of wind from the outside. A thought occurred to me that I have huge history in the MG Road.	Interview at MG Road - Indecomm
22	22	Wednesday	Coding	1	0	1	Jobless Day - 54	IT vs BPO - Finale Part 1	Rain in during my interview time (Afternoon) and rest of the day was simple.	A motivational thankful for clearing second round at Indecomm.	I cleared the second round for Indecomm on .Net developer position. I also took some job related details for it. The rest of the day was plain and simple. Today starts the clash between IT and BPO. I told myself if I do not get result within evening, then I am not look into IT also and once again it has came back again for tomorrow. The battle lines are drawn. Will the history be repeated again. What will be the outcome of all these?	Indecomm Second Round cleared
23	23	Thursday	NA	0	1	1	Jobless Day - 55	IT vs BPO - Finale Part 2 - Rush Hour	No rain and plain weather	A path can be decided when one makes it an effort. Thankful for the effort.	Started off my day by waking up early. I had scheduled interview at 2.30PM for IT company Indecomm and documentation for BPO Company Qconnect at 10.30PM. So, I planned for the documentation and then the virtual interview(final round). This is the biggest battle of all times - IT vs BPO. A path a one should decide for the sake of motto of improvement. Little bit upset on parents that they still don't get it some times. But ignoring that, went for the documentation at Bommanahalli. In this documentation round, there was waiting a lot. There were 16 girls and 6 boys including me. Verified all the documentation and generated temporary ID card. After that got to know that the time was around 1.15PM and I was getting little impatient and cool at the same time as there was virtual interview for IT job. The HR didn't come at all after that and I was getting little frustrated. Finally received a message that we can leave for the day. He also informed all the details regarding the job offer and also told joining date will be day after tomorrow. Urgently I took a auto after departing from Qconnect. The auto driver was telling 300/- and I told him for 200/- and he agreed. He repeated the same thing when we had reached the destination. But, I paid 200/- . At that moment, I learnt that living with mother, I had learnt the concept of bargaining. Hurry, I rushed to my home and started opening my laptop. But the HR called me and told me that interview had got scheduled at 4.30PM. I was relaxed. I gave the interview and it was very tough and also did some cheating by using ChatGPT. So, I gave everything that I had left as it was the grand finale to finally decide the path. After few minutes, I got a call that I have cleared the round shockingly. Yuppie! The call was received in between the time, when I was going to the park for workout. Did some workout and came home. The rest of the evening was as usual casual. Had Cheetrana as dinner and slept off. What is the next part I should take, BPO or IT?	Indecomm Final Round cleared. Documentation Qconnect Done

[illegible]
