

SpringBoot – Remember Me

Code for Forgot Password in login.html

```
<div class="form-check">
  <input class="form-check-input" type="checkbox" value="remember-me"
id="remember-me" name="remember-me">
  <label class="form-check-label" for="flexCheckChecked">
    Remember me
  </label>
  | <a th:href="@{/forgot-password}" class="link-secondary">Forgot password</a>
</div>
```

Add this code in WebSecurityConfig.java -> Remember Me Code

```
.rememberMe(rememberMe -> rememberMe
    .rememberMeParameter("remember-me"))
```

Output
